About Me

Ever since I was young I dreamt of being a game developer, it is why I went to the Rochester Institute of Technology, I wanted to make my dreams come true and learn from the best. While at RIT, I learned web development and thoroughly enjoyed developing those skills. As a newly grad, I'm looking to break into the industry and grow further. I have a passion for learning and a desire to create things that will bring joy to people's lives, just like so many games, websites, and software have done for me.

Experience

Looking For Group (RIT) September 2024 - December 2024
Web Developer (Intern)
Worked in a small team to restart development on a website for RIT students to find groups to work with or projects to work on. Worked on designing the user interface of the website using Figma. Worked on some pages of the site using React, Node.js, Express.js, and JavaScript

Looking For Group (RIT) May 2024 - August 2024
Web Developer (Intern)
Worked in a team of 28 people to begin the creation of a platform for RIT students to find groups for various projects. Worked on design ideation as well as some backend for the "virtual room" feature. Utilized Node.js, Express.js, JavaScript, Eslint, and some React.

Education

August 2020 - December 2024
Rochester Institute of Technology
Bachelor of Science in Game Design and Development
Minor in Japanese
GPA: 3.9
Dean's List all 8 semesters
Relevant Classes:
- Game Graphics Programming I and II (C++ and DirectX 11/12)
- Rich Media Web App Development I and II (JavaScript, Node.js)
- Game Design & Development I and II

Languages

C++ ▬▬▬
